

# CWF-1

## Cold wire feeder

THE FUTURE OF ORBITAL WELDING

### DESCRIPTION:

- Dustproof and robust case, developed for industrial applications
- 2-rolls-drive with insulated plastic gear wheels (HF resistant)
- Suitable for wire diameters 0,6 mm and 0,8 mm
- Thick-walled Teflon-cold wire feeder hose attachable via fast-click-system mountable (no tools needed)
- Devices can be used horizontal or upright position
- straight wire feeding granted because of the low weight wire spool

### TECHNICAL DATA:

- Weight: 1,5 kg
- Dimensions: 215 mm x 250 mm x 115 mm

### SCOPE OF DELIVERY:

- cold wire extension cable 8.000 mm
- Teflon-cold wire feeder hose 2.000 mm

### OPTIONAL EQUIPMENT:

- Cold wire holder for gas cooled Tig torches (clamped under the ceramic nozzle with a copper wire outlet nozzle)
- Cold wire holder for water cooled 3-canal-silicon hose package
