

# OXYGEN ANALYZER

## Pro2 mobil

The Pro2mobil oxygen analyzer features a robust snap dome keypad, usable with working gloves, and provides audible confirmation for each key press. Its intuitive software includes alerts for measurement readiness and welding status.

### FEATURE

- Temperature regulated zirconium sensor
- Accuracy of measurement up to 5 ppm
- Graphic display (4 background colours)
- Integrated, free programmable horn
- Compatible with various surfaces for documentation and connection to external orbital welding equipment (e.g., Orbitec, AMI)
- Operator guidance in several languages
- Easy operated software
- PC software for documentation
- Special diffusion-proof FPM- measuring hose
- Measuring-data storable (Premium version)
- Charging cable for car-cigarette lighter available

### TECHNICAL DATA

- Range: 1000 - 5 ppm
- Power supply: 100-240 VAC (50 / 60 Hz)
- Charging voltage: 12 VDC, 1000mA
- Internal battery: 7 VDC, 2750 mAh
- Dimensions (L x W x H): 225 x 105 x 45 mm
- Weight: 0,57 Kg
