

REMOTE CONTROLS

RC plus+ / plus Connect

The RCplus+ and RCplusConnect remote control systems offer precise and flexible operation for orbital welding. Available in two versions:

- **RCplus+:** A wired remote control ensuring reliable and accurate adjustments.
- **RCplus Connect:** A wireless version featuring a master wired remote and a wireless remote, enabling operation up to 100m in open field.

OPERATING OPTIONS

- Left/right rotation
- Backward/forward wire feed
- OSC and AVC axes position adjustments
- Oscillation width, current, and wire speed can be adjusted seamlessly during welding
- A built-in LED indicator provides clear feedback:
 - Flashes during welding operation
 - In modification mode, the LED flashes with a longer "ON" phase to indicate unlocked settings
 - Fault indications are displayed in sync with the welding machine's binary signal
- Upgradeable with the RC TOUCHONE wireless remote control, enabling wireless operation up to 30 meters
- Universally compatible with any welding system, as communication is managed entirely between the remote controls

TECHNICAL DATA

- Dimensions (L x W x H): 120 x 70 x 30 mm / 4.72" x 2.76" x 1.18"
- Weight: 1,8 kg / 3.97 lbs (wired, incl. cable)
50 g / 1.76 oz (wireless, without batteries)
- Wireless power supply: 3 AAA batteries (not supplied)
