

TUBE FACER

TF 1.6

The TF 1.6 tube facer is designed for precision work with a range of 3.17 to 38.1 mm (0.31" to 1.50"). For added convenience, an optional stand is available (included by default with the TF 4.5 model). The tube facer is compatible with both power drills and battery-operated drills, offering flexibility and ease of use in various work environments.

The TF 1.6 replaces the TF 1.5, which is discontinued, but spare parts remain available.

TF 1.5: Single-piece clamping collar

TF 1.6: Two-piece split clamping collars
