

V-BLOCKS

2 DIFFERENT SIZES

Versatile V-Blocks for Precise Applications

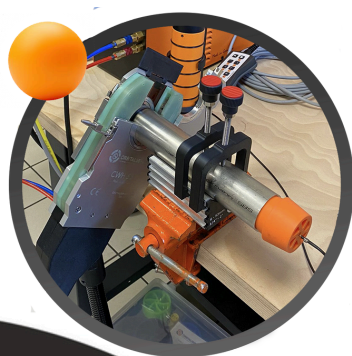

Our V-blocks are available in two configurations to suit a wide range of needs:

- Ø 6 mm to Ø 53 mm (0.24" to 2.09" - Art. no. PrisGr4100)
- Ø 12 mm to Ø 115 mm (0.47" to 4.53" - Art. no. PrisGr5100)

KEY FEATURES

- **Lightweight Design:** Made from continuous cast profiles, the V-blocks are not only durable but also lightweight, reducing the risk of accidents during handling.
- **Customizable Lengths:** Sold by the meter, they can be tailored to any desired length, offering maximum flexibility for your specific requirements.

These V-blocks combine safety, convenience, and adaptability, making them the perfect choice for precision work.

AREAS OF APPLICATION

- All scenarios where orbital welding and offset-free fixing and tacking are required

MATERIAL

- V-blocks made from drawn aluminium, non-anodised
- Clamps made of polycarbonate
- Clamping screws made of 1.4305/1.4301
